## Press Release

Officer Christopher Trim, EGPD Public Information Officer  
916.627.3709 (Office)

FOR IMMEDIATE RELEASE

September 1, 2011

### **REGISTER FOR EMERGENCY NOTIFICATIONS**

ELK GROVE, CA – The Sacramento Regional Reverse 911® system is now able to register cellular phone numbers and/or VOIP (voice-over-internet protocol) phone numbers so that residents and business owners can receive emergency notification alerts.

The Reverse 911® system is an emergency community notification tool designed to inform residents and business owners of significant incidents occurring in a geographical area within the city of Elk Grove. Prior to the new feature, the system only contacted residential and business landline numbers. However, we are now offering the ability for those with mobile phones or VOIP systems to register their phones to a physical address and receive alerts when that address is included in an emergency notification.

If you work or live within Elk Grove, and wish to be part of this notification system, you can register your contact information by visiting our website at [www.elkgrovedpd.org](http://www.elkgrovedpd.org). Click on the Reverse911® tab on the home page and follow the prompts.
